JAPANESE NEWSPAPERS SUPPORT ULTIMATUM.

TOKIO, Japan, Aug. 17.—The Japanese newspapers strongly support the ultimatum issued by Japan to Germany directing the latter to withdraw her forces from the Pacific.

LONDON, England, Aug. 17.—The military censorship on all war news is extraordinarily effective. No general naval or military movements have been reported for three days past. Lord Kitchener requiring the newspapers to publish only what is given out by the government press bureau has resulted in a dearth of news from the scene of actual fighting.

TEXT OF ULTIMATUM.

"Considering that it is highly important and necessary to take measures to remove the cause of disturbances in the far east, and to safeguard the general interests as contemplated under the Anglo-Japanese alliance and in order to secure the enduring peace of Asia it is believed to be the duty of the Japanese government to advise Germany to at once carry out the three following propositions:

"First—The immediate withdrawal or disarmament of all German warships in Chinese or Japanese waters.

"Second—The delivery of Kiau Chau not later than September 15 next to the Japanese government, with a view of eventual restoration of the place to China by the Japanese government.

"Third—If these terms are not unconditionally accepted by Germany by August 23 next, Japan will be compelled to take such action as she may deem necessary to meet the situation."

The inspired utterances of Premier Okuma express regret at the inability to maintain neutrality in the far east, but he says that England, who is Japan's ally, has been compelled to defend herself against Germany's aggressions.

The premier of Japan points out that Germany is now engaged in storing provisions at Kiau Chau and is interfering with eastern Asiatic commerce.

A DOUBLED ADVICE.

COAST ATTORNEY TO TAKE CHARGE McCARN'S OFFICE?

An Associated Press dispatch this morning on the case of U. S. District Attorney Jeff McCarn, followed shortly afterward by local developments, indicates that pending the trial of Mr. McCarn on the federal and territorial indictments standing against him, he will be relieved of office here.

Whether he will in any event resume the duties of U. S. attorney for this district is not stated, but today's developments are regarded as rather unfavorable to the district attorney.

Shortly before noon today the Star-Bulletin received the following Associated Press dispatch by wireless:

"M. A. Thomas, first United States attorney here, appointment replace McCarn next sixty days. Sails tomorrow."

The text of the message above is somewhat ambiguous. It may be read that Mr. Thomas will receive appointment in the next 60 days to replace McCarn. Or it may be read that Thomas is relieving McCarn for 60 days.

Alex Lindsay, former territorial attorney-general, and the man designated as special assistant to the U. S. attorney-general for the presentment of the federal charge against McCarn. He also will consult with the contractor and with the architect, C. W. Dickey, obtaining from the former some idea as to just when the building will be completed, in order that efficient work may be done by all those who are interested in the proposition.

On matters regarding promotion, Mr. Wood will interview Charles C. Moore, president of the exposition company, and urge him to pay more attention to Hawaii in the exposition's eastern advertising and lecture bureau work. Explaining the reason for this, Mr. Wood said that the large number of tourists who will visit the exposition will want to do something more than go to San Francisco; they probably will seek a sea voyage, and it is the idea of the Promotion Committee to bring them to Hawaii.

Adding fully 100 per cent to the attractions of the oil paintings of the old royal Hawaiian families which hang in the senate chamber, house of representatives and the upper corridor of the capitol building, the public works department has finally succeeded in attaching to the famous ancient pictures the small descriptive plates, setting forth in plain English the names and historic part played by each of the characters portrayed there.

The plates, though modern, and in contrast with the begrimed age of the pictures to which they are fixed, only add to the interest, not only for tourists but for virtually all people of Hawaii. It is said that probably not more than four or five men here could go through the old royal gallery at the capitol building and name each picture correctly.

The heads of the various railway and steamship companies in San Francisco to advertise the islands to a greater extent.

"I am going to see what can be done toward arranging for some special promotion work in Southern California," said Mr. Wood. "This work probably will be carried out during January, February and March of next year. I understand that Southern California is expecting an enormous tourist trade, and it is possible that many tourists may be induced to visit Hawaii."
